### PROCESS

All courses and awards of the Sydney College of Divinity are developed in accordance with the SCD Strategic Plan, particularly its Vision, Mission and Values statements.

This particular policy, dealing with the accreditation of academic faculty, sits within the ambit of the Learning and Teaching policies of the College. It addresses the following Strategic Objectives

- Develop guidelines for the recruitment, development, and retention of the highest quality academic staff.
- Encourage the development of initiatives to improve the quality of teaching and the student learning experience.
- Maintain best practice in teaching and learning strategies and delivery modes.
- Provide professional development opportunities to further the development of teaching competencies.

#### SCOPE

- 1) This policy governs the accreditation of Teachers and Associate Teachers within the SCD where Teacher is defined as a person who is responsible
  - a) for all or most of the following teaching activities: instruction; evaluation; student-academic advisement;
  - b) to engage appropriately with others, when required, in academic program planning; and curriculum development.
  - c) for supervising the performance of Associate Teachers in the activities in (a) above
- 2) The significant terms in the definition of Teacher are defined as follows:
  - a) Instruction is
    - i) the transfer of knowledge, through lectures, and equally well through appropriate printed, videotaped, or electronic teaching materials.
    - ii) facilitating learning through activities, experiences, projects and events other than knowledge transfer developing values, skills and attitudes, and
    - iii) meeting of special needs in various ways ranging from structured to individualised activities, including instructional support activities which aid and enrich the teaching-learning process.
  - b) Evaluation is the process of judging the effectiveness of student learning
  - c) Academic advising is the sharing of information between faculty and student regarding the student's academic progress or professional goals, and assists the student in maximising the benefits from the educational experience.
  - d) Academic program planning identifies educational goals and contributes to their implementation.
  - e) Curriculum development may be directed towards either course or program development and may involve credit or non-credit activities. This is facilitated by individual involvement and collaboration with colleagues, and recommendations to the appropriate committees where necessary.
- 3) Exclusions: A person who is not engaged in the above range of teaching activities is not a Teacher and falls outside this policy. This includes any form of student support activity, counselling, and mentoring.

## PURPOSE

Faculty Accreditation is a process by which the College ensures that students, church bodies, employers, accrediting authorities, and other stakeholders recognise the faculty as bona fide practitioners.

Providing faculty hold qualifications from a recognised Australian higher education provider or have overseas qualifications recognised within the guidelines published by the National Office of Overseas Skills Recognition, (NOOSR) this process accredits academic faculty to teach particular course units and/or subdisciplines (normally one subdiscipline, although teachers may make a case for additional subdisciplines where they have an appropriate breadth of qualifications and experience ).

Traditionally academic faculty have regarded their discipline as the source of their professional status. Appropriate qualifications are normally regarded as a higher degree in the subject or practice in a professional area. Faculty are granted entry to the profession after apprenticeship in the study of the discipline. Sometimes experience in the practice of a profession may also be required eg academics in the faculty of medicine are generally accredited doctors.

Faculty accreditation is the process by which the College grants entry to qualified people as professional academics in theology.

This policy notes the *SCD Learning and Teaching Plan* (especially Goals 1 &2 4) that reflects the notion that in the 21<sup>st</sup> century the Academy is moving to broader accreditation criteria. These criteria require academic faculty to have some qualifications in pedagogy in addition to the qualifications in the discipline. The traditional apprenticeship model by which students learn the discipline, gain the qualification, and then move into the Academy where they become apprentice masters inducting a new generation of students into the discipline is being superseded. When applied to theology, the new model emphasises

- information management and active learning rather than knowledge transmission
- the integration of academic theology and ministry through experiential and ministry-based learning
- individual differences in learning styles and developing the ability to teach in radically different modes
- new developments in learning technology
- a basic grounding in theological knowledge combined with the development of cognitive and transferable skills to enable students to succeed in their vocations in a diverse range of ministry settings

Although not a barrier to accreditation, applications by faculty should address these issues in the section of the application form headed "Educational Leadership, Curriculum Development, and Teaching."

## **ACCREDITATION CATEGORIES**

- 1) Teacher
  - a) is accredited to teach course units from AQF Level 5 to AQF Level 9
    - i) providing the teacher possesses a qualification that is at least one AQF level higher than the level of the course being taught, which includes substantial study in the discipline being taught;
    - ii) or, in applied disciplines, has significant professional experience which may be taken into account for the purpose of accreditation;
  - b) is accredited to supervise research course units at AQF Levels 9 and 10
    - i) providing that the teacher possesses a professional or research doctorate relevant to the discipline of the research.
- 2) Associate Teacher
  - a) is accredited to teach course units providing they
    - i) are supervised by a teacher who will
      - (1) review and approve the detailed content of the course unit semester outline given to students;
      - (2) advise on the inclusion of appropriate books and articles in the bibliography given to students;
      - (3) approve assessment tasks as appropriate to the outcomes of the units;
      - (4) review a selection of assessed material to ensure that grading is appropriate to the level of the unit;
      - (5) consult with the person being supervised at least four times (or the equivalent for distance education) during the year on the progress of the unit and at least once during the teaching of an intensive;
      - (6) act if necessary as a guest lecturer for those content areas where there is a clear deficiency in the expertise of the person being supervised;
      - (7) take account of any student review/evaluation at the end of the unit;

- (8) keep a log of the above process for the purposes of moderation in the subject area, a copy of which will be forwarded to Academic Standards Committee twice per semester.
- ii) possess qualifications in relevant disciplines at least equal to the level of the course unit being taught.
- b) may apply to be a teacher of the course unit(s) after three years supervision.

## PROCEDURES

- 1) Academic faculty seeking accreditation should complete the Application for Accreditation as SCD Teacher/Associate Teacher and submit it with the required documentation to their Principal (or designate).
- 2) The Principal (or designate) will approve the submission of the application and required documentation to the Academic Director for analysis and report.
- 3) The Academic Director will file the application and associated documents and present a report to the Coursework Committee on the suitability of the applicant for accreditation and the units or subdisciplines covered by the accreditation.
- 4) The Coursework Committee will recommend on the application and report the decision to the Academic Board.
- 5) When Academic Board receives and approves the accreditation, the Academic Director will include the Faculty approval on (a) Faculty Register and (b) Faculty List Server, and (c) communicate the approval to the Academic Dean of the relevant Teaching Body.
- 6) The Academic Dean of the relevant Teaching Body will encourage the approved applicant to commence the Academic Faculty Classification process (see Academic Faculty Classification Policy).

#### ACCREDITATION OF ACADEMIC FACULTY

#### **APPENDIX A**

# Minimum Qualifications to Teach in the SCD Introduction

The Higher Education Standards Framework, Section 3.2 requires that

- 1. The staffing complement for each course of study is sufficient to meet the educational, academic support and administrative needs of student cohorts undertaking the course.
- 2. The academic staffing profile for each course of study provides the level and extent of academic oversight and teaching capacity needed to lead students in intellectual inquiry suited to the nature and level of expected learning outcomes.
- 3. Staff with responsibilities for academic oversight and those with teaching and supervisory roles in courses or units of study are equipped for their roles, including having:
  - a. knowledge of contemporary developments in the discipline or field, which is informed by continuing scholarship or research or advances in practice
  - b. skills in contemporary teaching, learning and assessment principles relevant to the discipline, their role, modes of delivery and the needs of particular student cohorts, and
  - c. a qualification in a relevant discipline at least one level higher than is awarded for the course of study, or equivalent relevant academic or professional or practice-based experience and expertise, except for staff supervising doctoral degrees having a doctoral degree or equivalent research experience.
- 4. Teachers who teach specialised components of a course of study, such as experienced practitioners and teachers undergoing training, who may not fully meet the standard for knowledge, skills and qualification or experience required for teaching or supervision (3.2.3) have their teaching guided and overseen by staff who meet the standard.
- 5. Teaching staff are accessible to students seeking individual assistance with their studies, at a level consistent with the learning needs of the student cohort.

The SCD has determined that the following specifications meet these standards.

### Part A:

#### Qualified to at Least One Qualification Standards Level Higher than the Course of Study Being Taught

Where the qualifications or experience of a proposed teacher are considered inadequate for unsupervised teaching within the SCD, the Coursework Committee may recommend approval of that person as an associate teacher. Strict supervision procedures are outlined in the <u>Accreditation of Academic Faculty: Policy and</u> <u>Procedures</u>. Associate teachers will be accredited for specific units only and normally for maximum of four units only.

All qualifications must include substantial study in the subdiscipline for which accreditation is being sought.

| SCD Unit Level To<br>Be Taught | Teacher  | Associate Teacher  |
|--------------------------------|--|--|
| AQF Level 5                    | AQF Level 7 Bachelor degree in theology, ministry, divinity or philosophy  | AQF Level 7 qualification in theology, ministry, divinity or philosophy  |
| AQF Level 7                    | with substantial study in the relevant subdiscipline<br>AND<br>A 1 year AQF Level 8 qualification in theology, ministry, divinity or | AQF Level 7 qualification in theology, ministry, divinity or philosophy with<br>substantial study in the relevant subdiscipline<br>AND<br>A 1 year AQF Level 8 qualification in theology, ministry, divinity or philosophy<br>with substantial study in the relevant subdiscipline |

| SCD Unit Level To | Teacher   | Associate Teacher  |
|-------------------|---|--|
| Be Taught         |   |  |
| AQF Level 8       | AQF Level 9 qualification in theology, ministry, divinity or philosophy with substantial study in the relevant subdiscipline  | AQF Level 9 qualification in theology, ministry, divinity or philosophy with substantial study in the relevant subdiscipline |
|                   | Research Units: As well as or as a part of the above requirement,<br>supervision of research units (research essay, research<br>project, research methods, thesis) requires a research<br>qualification of at least AQF Level 9 |  |
| AQF Levels 9-10   | AQF Level 10 qualification in theology, ministry, divinity or<br>philosophy with substantial study in the relevant<br>subdiscipline   |  |

Part B:

**Qualified with Equivalent Professional Experience** 

|             | n Equivalent Professional Experience  |   |
|-------------|---|---|
|             | n as Teacher: Professional Qualifications<br>qualifications equivalent to an AQF Level that is at least one Qualification   |   |
|             | evel higher than the course of study being taught   |   |
|             | It must hold a Bachelor's degree in the subdiscipline to be taught and demonstrate<br>high professional standing <b>and</b><br>broad theological understanding and awareness.   |   |
|             | <b>onal Standing</b> :<br>trate activity in at least two of the following areas within the past five years  | Evidence required   |
| teac<br>who | bloyment at a supervisory or other advanced level in work directly related to the ching area accompanied by three references from leaders in the field <i>(two of om should be external to the applicant's MI)</i> certifying that that the applicant is I-regarded professionally by his/her peers | Certified copies or original documents of attestation provided by officials in senior leadership positions detailing the nature and quality of the elements of experience relevant to the teaching area |
|             | fessional Development: maintain professional certification, attend professional ferences and workshops.   | Certified copies or original documents of professional membership or conference/workshop involvement  |
| c) Prof     | fessional Leadership: Officer in international, national, or state associations   | Certified copies or original documents of attestation provided by officials in senior leadership positions detailing the nature and quality the elements of experience relevant to the teaching area    |
| d) Boo      | ks: Academic or practitioner-oriented book  | Full citation details of relevant publication(s), with a statement of the relevance to the teaching area  |
| e) Arti     | cles: Peer-reviewed or non-peer reviewed articles in practitioner journals  | Full citation details of relevant publication(s), with a statement of the relevance to the teaching area  |
| f) Edit     | orials: Editorial in professional magazines or journals   | Full citation details of relevant publication(s), with a statement of the relevance to the teaching area  |
| g) Pres     | sentations: Local, regional, national or international practitioner conferences.  | Certified copies or original documents of professional membership or conference/workshop involvement  |
| h) Autl     | horing public or professional reports   | Full citation details of relevant publication(s), with a statement of the relevance to the teaching area  |
| · -         | age in other professional duties and responsibilities deemed sufficient to nonstrate currency in teaching area.   | Certified copies or other documentary evidence of attestation of such activity and a statement of its relevance to the teaching area  |

| 2) | Theological understanding and awareness:<br>demonstrate an integration of professional activity and theological understanding in at<br>least two of the following activities within the past five years | Evidence required   |
|----|---|---|
|    | a) Professional Leadership: Officer in international, national, or state associations   | Certified copies or original documents of attestation provided by<br>officials in senior leadership positions detailing the nature and quality of<br>the theological dimensions of the professional leadership involved |
|    | b) Books: Academic or practitioner-oriented book  | Full citation details of relevant publication(s), with a statement of the theological dimensions relevant to the teaching area  |
|    | c) Articles: Peer-reviewed or non-peer reviewed articles in practitioner journals   | Full citation details of relevant publication(s), with a statement of the theological dimensions relevant to the teaching area  |
|    | d) Editorials: Editorial in professional magazines or journals  | Full citation details of relevant publication(s), with a statement of the theological dimensions relevant to the teaching area  |
|    | e) Presentations: Local, regional, national or international practitioner conferences.  | Certified copies or original documents providing details of such presentations, with a statement of the theological import of the presentation(s)   |

| f) | Authoring public or professional reports  | Full citation details of relevant publication(s), with a statement of the the the the the the the teaching area  |
|----|---|--|
| g) | Engage in other professional duties and responsibilities deemed sufficient to demonstrate currency in integration of professional activity and theological understanding. | Certified copies or other documentary evidence of attestation of such<br>activity and a statement of its theological relevance to the teaching<br>area |

#### **APPENDIX B**

#### Accreditation of Academic Staff from Recognised Institutions

#### Introduction

Academic staff from an institution recognised by the SCD may be accredited to teach within the SCD.

#### **Recognition of institution**

Nominations for recognition of institution by SCD will be submitted by an SCD teaching body to the Academic Director. The nomination will take the form of a one page document that provides the following information: name of institution, history, courses offered, accreditation, academic staff (number and quality). The Academic Director will consider the nomination and recommend to the Coursework Committee for recognition by Academic Board.

#### Accreditation of Academic Staff from Recognised Institutions

Applications for accreditation of academic staff from recognised institutions will be submitted by an SCD teaching body to the Academic Director. It will be accompanied by proof of their status within the recognised institution and a statement that outlines the proposed activities of the applicant and their suitability to undertake these activities. The Academic Director will consider the nomination and recommend to the Coursework Committee for recognition by Academic Board.

#### **Duration of Accreditation**

Accredited staff from recognised institutions will be required to renew their accreditation by submitting a full curriculum vitae at the time of applications for accreditation with TEQSA.

#### APPENDIX C

Accreditation of Academic Staff as Teachers of subdiscipline D: Theological Education

#### Introduction

The subdiscipline of Theological Education (D), established in 2017 within the discipline Humanities in the Christian Tradition, differs from the other SCD subdisciplines in that, rather than delivering part of the curriculum towards regular theological awards, it serves theological education by enabling theological teachers wishing to improve their professional work to reflect upon and engage in research about Learning & Teaching Theology towards the formal qualification of the Graduate Certificate in Theological Education (GradCertThEd).

The subdiscipline has a dual nature. It aims to foster a consistent marriage of the two elements of theology and education at all stages, aiming to produce graduates with a sufficient theological base by which to frame their educational theory and practice, and a sufficient educational context in which to ground and apply their theology.

Academic staff already accredited as SCD teachers in another (sub)discipline may be accredited to teach within the subdiscipline of Theological Education. Given the dual nature of the subdiscipline, teaching faculty require a dual qualification in both elements of *theological education* at an appropriate level for the award. Teachers need to have advanced studies in a theological discipline to ensure the theological integrity of the student's learning experience. They also need to have a current awareness of educational theory and practice with special application to the theological context.

Since the subdiscipline is specifically designed for other theological educators in the tertiary sector, teachers also require sustained and current experience in *theological education* of a demonstrable quality which commends them to learners who are their professional peers.

# **3.** Accreditation of Teachers for (D) Theological Education **3.1** Basic Requirements for Accreditation

A PhD in their own specialty area combined with longevity, currency, and demonstrable quality in both teaching and academic leadership within that discipline of specialty. In part and normally, this will be demonstrated by accreditation, classification, and professional activity within the SCD.

Formal qualifications in education or demonstrable professional equivalence suitable for a teacher of AQF 8.

Demonstrable and recognised experience in combining both qualifications in the practice of theological education.

Currently (within the last five years) engaged in theological education.

# 3.2 Criteria of Accreditation

#### (a) Accreditation by Formal Qualification

Accreditation by Formal Qualification is achieved by:

- i. a PhD in a field of Philosophy and Religious Studies, with publications and teaching experience; AND
- ii. an AQF 8 qualification in the field of Education; AND
- iii. a demonstrable combination of the two formal qualifications, whether as a formal part of an academic program (e.g. a thesis) or other significant publications; sustained (10+ years) class-room teaching experience of recognised quality; or recognised academic leadership in the theological sector.

Thus, given iii, even Formal Qualification requires a demonstration of suitability that goes beyond the acquisition of relevant academic awards.

#### (b) Accreditation by Professional Equivalence

Whereas there may be some who gain accreditation by formal qualification, accreditation will more commonly require the demonstration of professional equivalence, especially for the Educational element.

Accreditation by Professional Equivalence is achieved by EITHER:

- i. a PhD in a field of Philosophy and Religious Studies, with publications and teaching experience; AND
- ii. a sustained (10+ years) and current experience in education (both class-room teaching and academic leadership, and publication in learning and teaching), which is of demonstrable and recognised quality and informed by research into tertiary learning and teaching; **AND**
- iii. a demonstrable combination of the two elements, at a level appropriate to the tertiary theological sector.

OR:

- i. a PhD in a field of Education AND a qualification in Philosophy and Religious Studies of at least AQF 9, with publications and teaching experience; **AND**
- ii. a sustained (10+ years) and current experience in theological education (both class-room teaching and academic leadership), which is of demonstrable and recognised quality and informed by research into tertiary learning and teaching; **AND**
- iii. a demonstrable combination of the two elements, at a level appropriate to the tertiary theological sector.
